Dear Colonel Watrous:

On 30 November 1981, two members of your organization, Howard White and Ronald Rudman, presented briefings on Soviet Air and Space Reconnaissance to the DCI's Science and Technology Advisory Panel (STAP). The briefings were excellent and were well received by the panel. STAP believes that this is an important subject and is beginning to look at it from a technology point of view primarily. Please pass on to Messrs White and Rudman our sincere thanks for a job well done. We recognize the amount of work involved in a briefing such as that and want them, and you, to know that it is appreciated.
